### Get Help Quickly

Whether for a personal emergency, first aid, or other's safety.

### Receive Notifications

Receive real-time notifications so you stay informed in the event of an emergency.

### Check In with Security

Check in when you work alone or in high-risk areas. Set a timer on your session that automatically alerts the team if you become unresponsive. The system is privacy-protected, so will never share your location unless you summon assistance or if you use the check-in function.
