

Progression Evening June 2022

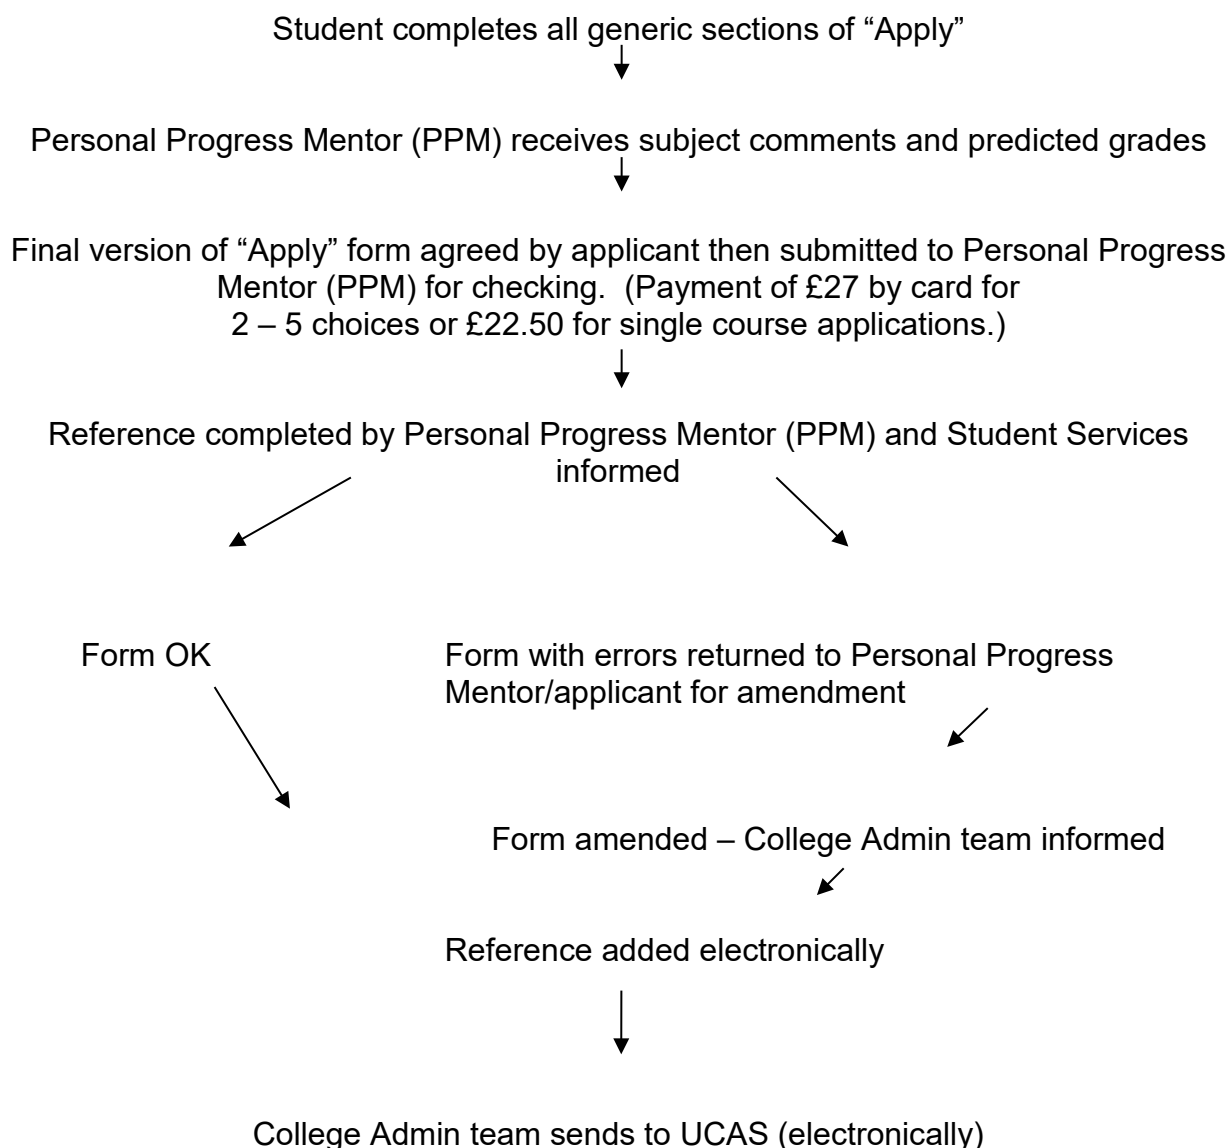

College application process

Current and ex-students are offered a great deal of support with their application.

When the final application is submitted electronically to UCAS it has undergone **NUMEROUS** checks.

It is very much the applicant's own responsibility to keep on top of the process at all times. **An early, but well considered application is favoured/recommended.**

Internal UCAS trail

Our checking procedures are put into place to offer applicants a high level of support and to ensure accuracy. Consider this – we process around 1500 applications during each cycle!
