

Extended Diploma Course in Art and Design

Welcome!

Here is your first tasks to be completed ready for your first lesson. Please bring it with you on the first day of college: Research motivational quotes using Google or Pinterest. Select the ones which appeal to you for their words and/or images. Fill an A4 page with them or save them in an organised way on an app on your phone. If you can print the images, please do so (if not don't worry we can do this in college).

Research into ONE of the following Artists:

Anthony Burrill

Barbara Kruger

Banksy

Jenny Holzer

Select one piece of the artists' work which has text in it. Write a maximum of 500 words about the work. Describe the medium the artist uses, the style, the purpose of the work and the style of the typography (text) within the work. What is good about it, what is not so good about it? Does it fulfil it's purpose in your opinion?

On an A3 piece of plain paper (or 2 A4) Draw 12 boxes 8x8cm square.

In these boxes you will design different motivational quotes which will be displayed in the Diploma Art studio to inspire students to feel positive, work hard and achieve.

We would like to you to show your understanding of colour theory and various art media by completing this work in as wider range of media as you can E.g., paint, collage, pencil, biro. If you would like to, you are also able to complete some of the 12 designs using photoshop/illustrator or create your own photographs with the quotes in.

From these works we select out the best ideas and continue to manipulate them into final outcomes within our first few lessons.

I look forward to seeing your ideas and images 😊
