

## BTEC National Extended Certificate in Creative Digital Media Production

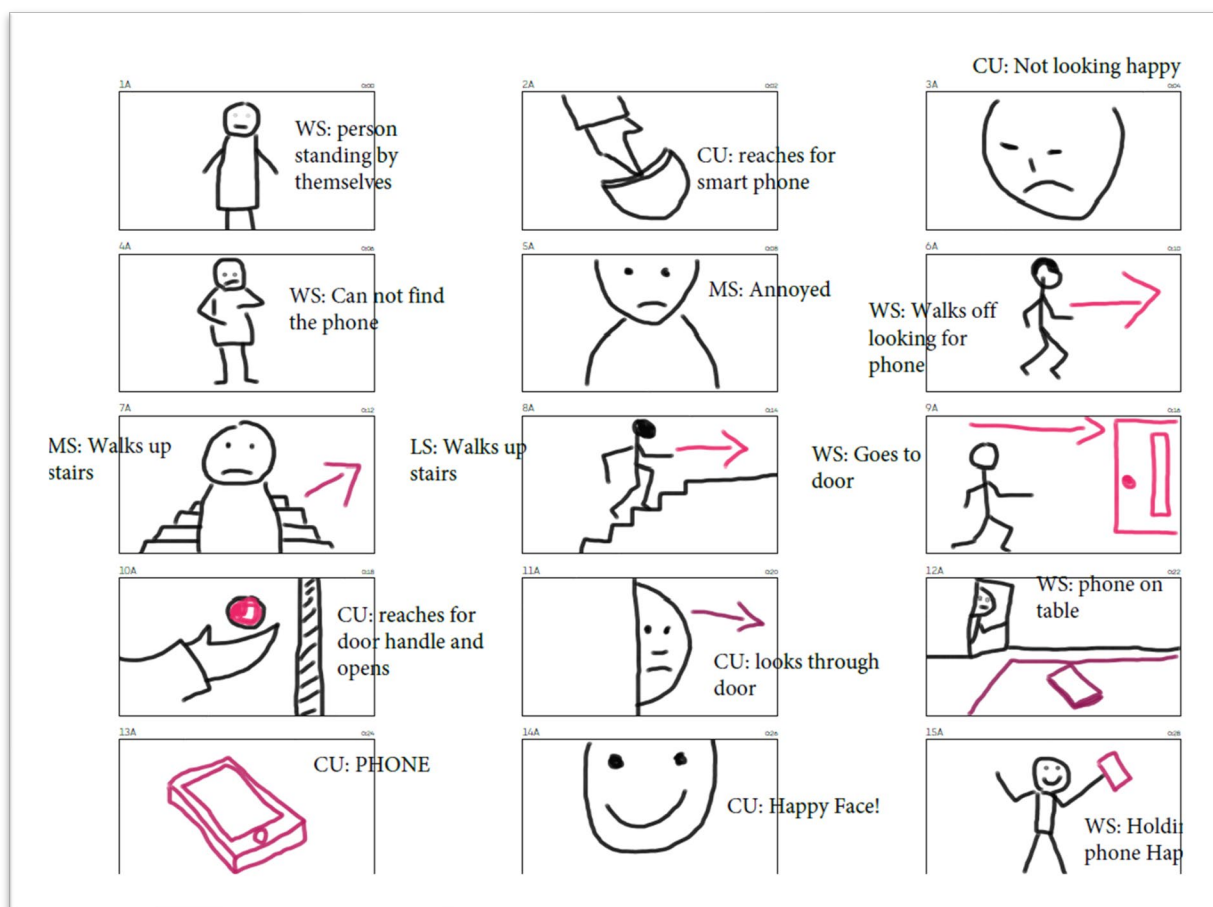

### Enrolment task:

To assess your suitability for this course we would like you to demonstrate your creative skills with **camerawork** and **mise en scene** ('what is in the frame').

Using your phone, you need to shoot a **60 second short film** that includes at least **10 camera shots**, there should be only **1 character and little to no dialogue** – the emphasis here is on **visual storytelling**. The story is simple, a character has lost their phone (or something else) and must search for it.

You can edit your film using the following free video editing apps, **iMovie** for iPhone and **FilmoraGo** for Android.

Use the storyboard template below to ensure you **vary your shot types**.

Once you have finished your film, you must upload the short film/footage to **Padlet** using the QR code:

- Scan the QR code
- Label the film with your name
- Upload for assessment.

Once you have completed this task, please return to the media subject desk.

WS – Wide shot, LS – Long shot, MS – Medium shot, CU – Close up
