Queen Elizabeth I  
College

# **YEAR 10**

# **Engagement**

# **Event**

**17 JUNE 2025**

# **BIOLOGY, CHEMISTRY AND APPLIED SCIENCE**

Are you looking for a career in Biology, Chemistry or Science, but not sure what it would lead to? Come and have a look at our labs and talk to our specialist staff on about the exciting possibilities we can offer.

## **What to expect:**

Interactive sessions with demonstrations and the opportunity for some hands on practical work.

We will look at things like gel electrophoresis to identify DNA or the chemical reactions behind a manganate volcano. What kind of scientist would you like to be? Come and meet the experts to help you decide.

**Come and  
see us in  
S Rooms**

## **Subject Location**

**Applied Science - S08/S102**

**Biology - S08**

**Chemistry - S102**

# MATHS

Are you passionate about maths and eager to deepen your understanding of mathematical techniques and how they are applied?

Studying maths complements subjects like physics, chemistry, computer science and economics. It also opens the door to a wide range of career paths by helping you develop essential employability skills such as problem-solving, logical thinking, communication, and resilience.

**Come and  
see us in  
E03**

# **PHYSICS, ELECTRONICS, COMPUTING AND ICT**

## **Meet the Experts:**

Engage with our experienced teachers and current students who will share insights about the courses, career pathways, and the exciting opportunities awaiting you.

## **Get a Taste of the Future:**

Learn how these subjects pave the way for careers in engineering, software development, IT management, data science, and more!

**Come and  
see us in  
G Building &  
S Rooms**

## **Subject Location**

**Computer Science - G101**

**AAQ In Computing - G101**

**Electronics - S111**

**AAQ in IT : Data Analytics -  
G102**

**Physics - S112**
