

CHOOSE THE RIGHT PATHWAY

Making choices about what to study can often be difficult when faced with so many options, including subjects that may be new to you.

You may want to consider the course content, how it is assessed and which courses combine well. By visiting our website, you will gain more information that may help you decided on a programme.

When planning your programme you should take into account what your GCSE or prior achievement is likely to be, what you are interested in and how studying a subject may prepare or qualify you for what you want to do after leaving college.

We offer different levels of programmes and you will have advice on which suits you best based on your GCSE results. If you enrol onto an Entry Level, Level 1 or Level 2 programme, you will be given advice and guidance to progress internally onto the next level.

Your study programme

The college offers an unrivalled range of courses from Entry Level to Level 3, meaning that we can help find the right programme for you.

The vast majority of student at WQE will enrol onto a Level 3 programme, which may consist of vocational and/or academic courses. It is important to choose a combination of courses that suits your preferred way of study and careers aspirations.

Our programmes of study and individual courses have specific entry criteria; we can give you good advice about the best match for your current abilities, interests and needs.

As a guide, use the table below to identify the level and the programme type that best matches the qualifications with which you expect to enrol at WQE. Within a programme, individual course/subject specific entry requirements apply. These can be checked on our website.

Programme	Duration	Entering with
A-Level and Vocational Level 3	2 years	Six GCSEs grade 9–4 including English Language (must include at least two GCSEs at 5 or above for A-Level courses)
Advanced Transition	1 transition year, with up to 2 further years at advanced level	This is a programme solely for students who hold a Level 3 offer, narrowly miss course criteria and who have clear potential to succeed at Advanced Level in due course with support
Progression Support	The College offers a small range of bespoke and ESOL provision to enable advanced level progression. For more information about this and the assessment process, please contact the Admissions Team directly	

*Specific subject criteria may also apply, see website for details

A-level courses

We normally expect applicants to have achieved good GCSE passes in at least six subjects, these must:

- demonstrate the suitability for Advanced Level study
- have been achieved at grade 4/C as a minimum
- include two at grade 5/B as a minimum
- include English Language - a minimum of grade 4/C

Mathematics - If not achieved within the scope of above should normally be achieved at a minimum of grade 3 (D). If mathematics is not achieved at grade 4 (C) then it will be a requirement to continue to study at the correct level until a grade 4 is achieved. Subject with a mathematical content will require a higher grade.
