Induction Activity: To be completed and brought to your first lesson

Resources needed to complete the activity:	General art and design materials
Estimated time to complete the activity:	1-3 days

Task: Typography and image

Typography is relevant to many forms of Art/Graphic Design, including posters, tickets, quotes, book covers and much more... It can be found in all forms, from hand calligraphy to portraits made out of text and logos.

Look at **two** different typography artists/designers and produce a research page for each one. Your page should consist of a title, images of the artist's work, a bit of analysis (your opinion, pros and cons) and a copy/recreation.

You then need to come up with your own Typography design poster. This could be based on a song lyric, a political poster, a famous quote, a portrait design, even a film poster. This piece can be made on the computer or by hand and can be made out of any material you choose.

Objectives:

- To explore a range of existing designers' work.
- To create small copies of existing designers work using either: digital, painting, drawing, or calligraphy
- To create a piece of Graphic work that reflects your understanding of typography
Using famous quote, song lyrics, and so on

Outcomes:

Your work should include evidence of all the objectives above. You can choose how to present your findings; it could be presented as a mini sketchbook, or on separate sheets, by hand or digital. **The poster submitted should be no bigger than A3.**

You should not write more than 200 words about each Designer.
